Desafio do ciclo da água

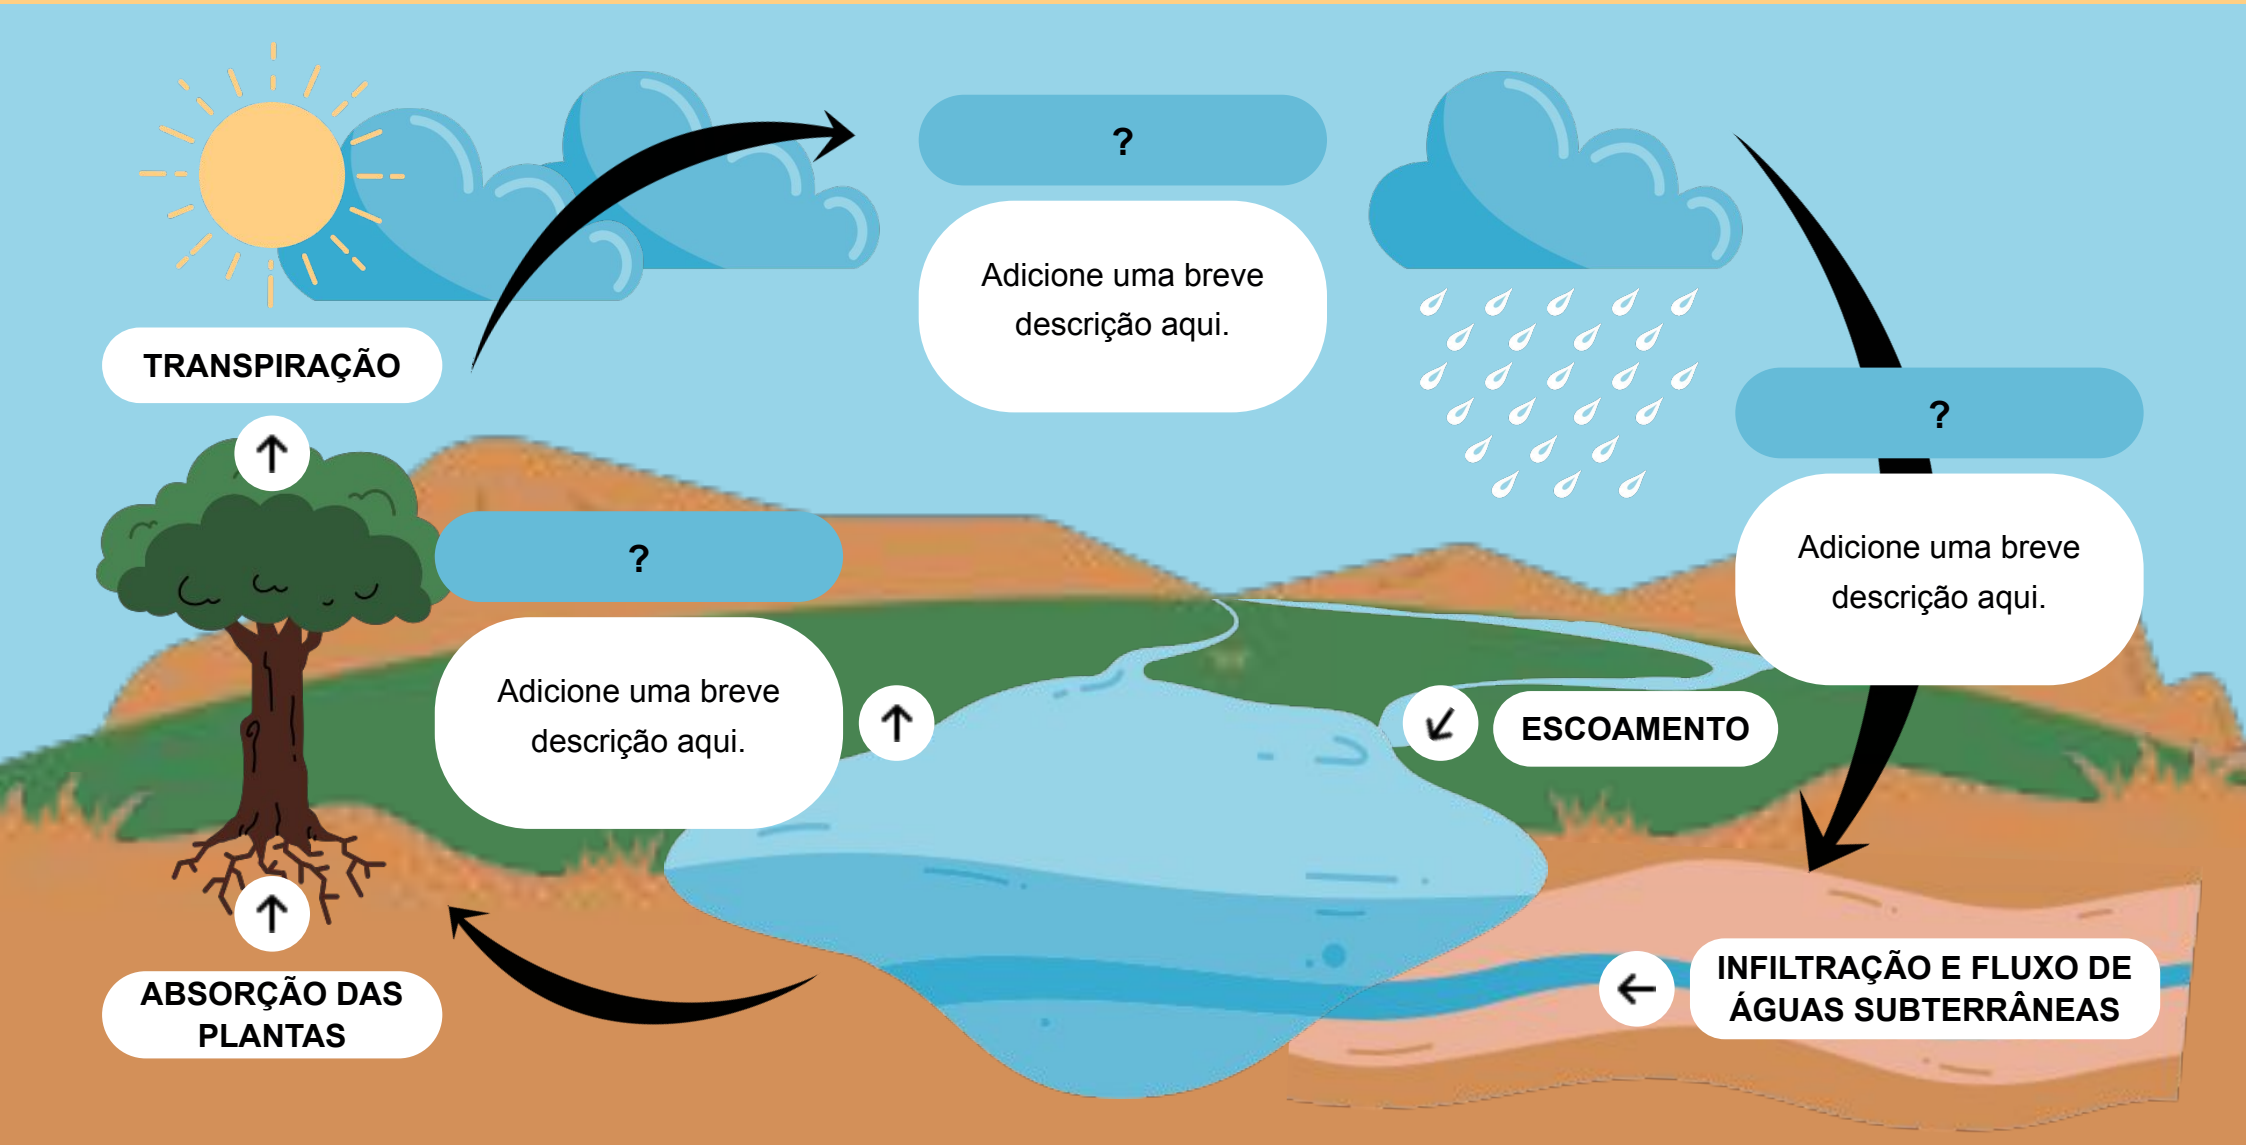
Assista ao vídeo sobre o Ciclo da Água:

Desafio do ciclo da água

Complete as peças que faltam.

Arraste e solte os processos abaixo para completar o ciclo da água. Depois, descreva cada processo no espaço fornecido.

EVAPORAÇÃO **PRECIPITAÇÃO** **CONDENSAÇÃO**



RESPOSTA

Desafio do ciclo da água

A água se move ao redor da Terra em um ciclo contínuo chamado de ciclo da água.
Ele é composto por três processos principais: evaporação, condensação e precipitação.
